Subject: FCC with Video Relay Service Issues

Importance: High

DOCKET FILE COPY ORIGINAL

Hello all,

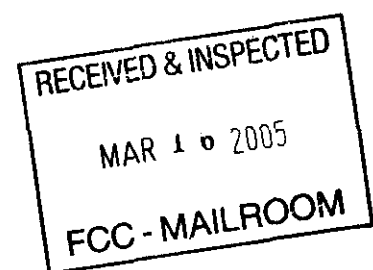

My name is Joshua Jones and I am deaf who use VRS frequently for my communication needs. Right now, I'm working on my masters in Telecommunication Engineering Technology at Rochester Institute of Technology and I am taking a course in U.S. Telecommunication Law.. I learned the news from www.deafnewspaper.com saying FCC is considering changing some of rules with VRS. I feel I should contact you in regards my learning at RIT and there are few regulations that I think should stay with VRS. For this situation, I am offering my help or be able to participate any of decisions if possible.

Please let me know how I can help and this would benefit my education. So consider this as a win-win situation for me – be able to learn and get “hands on” experience and be active U.S. deaf citizen. Please let me know how it will work with my presence.

Thanks and looking forward to hear from you soon,

Joshua Lee Jones
